今日Team Spirit官方发布人员变动公告，表示Torontotokyo将正式离队。

## Esports organization Team Spirit announces Dota 2 roster changes

Summarizing Team Spirit's performance in 2022, the club decided that changes to their Dota 2 roster were required.

After long consultations and dialogue with each player, and working through a variety of options for further development of the team, we came to the conclusion that Team Spirit will start the new season with changes to the main roster. Having analyzed all the pros and cons, the management of the organization decided to part ways with Alexander TORONTOTOKYO Khertek. In two years on Team Spirit, Alexander has grown from a talented player who loves Dota 2 to a professional who has proven himself at the highest level. His nickname will forever stay in the history of our organization, but it's time to move on and say goodbye. We believe that the decision will prove to be correct and mutually beneficial for Team Spirit and TORONTOTOKYO. We wish Alexander success in his future career and thank him for the time he spent with us.

This topic has been actively discussed for more than three weeks now, so my speech will be brief. Many things in life don't depend on us, and the phrase "control your destiny" is more about marketing and business trainings than about reality for me. Today, I wish a great guy and world champion success in his future. No eating my heart out or tearing my hair. TORONTOTOKYO is an absolute chad, we'll meet again both in Dota and in the first-floor restaurant. Thank you and see you again.

The past two years were cool! I met a lot of people I now consider my friends. I gained useful experience both in game and in life. I'd like to say thanks to my teammates and the entire Team Spirit staff for all this time! A special thank you to all the fans who rooted for us and for me personally! Keep following me, my goal remains the same – to win every tournament. And remember: everything is for the better.

Stay tuned for Team Spirit announcements in the upcoming days.

TORONTOTOKYO在莫斯科国立大学计算数学和工程系学习了一年，为了打Dota而退学。他曾说：“我以为我可以边上学边打Dota，但在MSU，不可能一个星期不去上课还能保持成绩跟得上的”。曾随队斩获Ti10冠军。
