

ELiGE打比赛不用显示器？粉丝写下颂词

昨日的BLAST全球总决赛Liquid的场次出现了趣味一幕。当导播将画面给到ELiGE时，大家并没有中发现显示器的影子。

鸡哥的“操作”让大伙儿崇拜不已。reddit的粉丝们纷纷写下赞美之词：

“鸡哥根本不屑于用显示器，因为他已经将地图以细节渲染的方式进行可视化，完全倒影进他的脑海中了。他是自带生物透视的人；他神一样的感知力超越了光年范围内的所有敌人。他是永生不死的，无可违逆的。这个所谓的“人”就是永恒的缩影。”

Elige doesn't even use a monitor. He visualizes the map in a detailed rendering, completely in his mind. He has a biological wallhack; his godlike perception highlights all enemies within light-years. He is un-killable. He is undefeatable. This "man" is the epitome of eternal.

“他开显示器无非是加个二级延迟罢了。”

Monitors are just 2 levels of extra latency.

playing with a monitor turned on is essentially just training wheels at this point for him
