ABOUT
Hardcore Royale

OVERVIEW TIPS

CHECK YOUR MAGS

Inspecting your weapon with **N** will show your weapon HUD. Allowing you to check your ammo and attachments on the move.

SCAN FOR SQUADS

Scanning Survey Beacons will reveal the number of Squads remaining. This info as well as the location of the next Ring will make planning and positioning easier.

COMMUNICATE

With less information on the HUD, the info you tell your Squadmates is more important than ever. Keep them informed and they'll have your back.

ABOUT
Hardcore Royale

OVERVIEW TIPS

STAY FROSTY

Hardcore Royale is Trio's with higher stakes and harsher punishments. You'll have less information on your HUD, and any mistakes made could be your last.

DONT BLINK

All Legends have Level 1 Armor (Non-Evo). No helmets, and Armor Swapping is disabled. Choose your fights carefully.

KEEP MOVING

The Ring does maximum damage from the start of the game. Position yourself accordingly and stay ahead of the wall of death.
